

## **Instructor (Safety and Survival)**

School of Maritime Studies  
Fisheries and Marine Institute

### **(Full Time)**

#### **Duties**

The successful applicants will provide instruction in offshore and marine safety courses at the Offshore Safety and Survival Centre. As an instructor you will be required to deliver/lead classroom instruction, practical instruction and demonstrations on the fire-field, in the survival tank or in open water and to assist with the development of course materials for new and existing courses.

#### **Qualifications**

The successful applicants must have at least five years experience on an offshore installation or commercial vessel and have successfully completed a three year technology diploma or Transport Canada officer certification. Preference will be given to candidates with superior education, previous teaching experience, and industrial experience as a member of emergency response organization. Highly desirable qualifications and experience include scuba diver certification, fast rescue boat and lifeboat coxswain, emergency operations team, tanker safety and/or safety management. The successful applicant must be in good physical condition.

**SALARY:** (NAPE Local 7405)
